TITLE FIGHT

Take a step back because I'm about to go
On the attack and take you down, destroy your stupid crown
I am here today because the years I slaved away
Taking each beat down to rise up from the ground
I'm loose, I'm light, I'm baptized by the mic
As I come out, swinging to the cheering crowd

You don't want to be in the title fight with me
Going toe-to-toe, landing all the blows
Dancing in this bout, I'll knock you out
You don't want to be in this fight with me

Step from the ring, wipe your brow as you bleed
Here I stand strong, always ready to battle on
The drive from inside and the passion that I provide
Makes me stand like a 100 men, my pride I will defend
Amped and in sight, I'm ready to end this fight
I'm coming after you like a loose primate in the zoo

You don't want to be in the title fight with me
Going toe-to-toe, landing all the blows
Dancing in this bout, I'll knock you out
You're in my sight, a left then a right
Crumble like a wall, as I watch you fall
You don't want to be in this fight with me

AT YOUR FEET

Mountains move and I shake
Laying here going on 28 days straight
Sleep my friend won't you take me home
I long for a place that I have known
Cause I'm on trial bleeding out my sins
But you're the one I have to convince

I can't be what you need me to be
So you'll just have to go without me
Let the rain fall, fall down at your feet
As you turn to walk out on me
This is my voice, this is this how I feel
It's all rushing in and it's all too real
This wound only time might heal

You would say, "This is all in my head."
But those aren't the words you'll regret
They've left me here meloncoly cold
Just like our bed now that I'm alone
Pictures of you still hang in my head
Birds on a wire they sit there not getting fed

Time might heal... So I can feel...
What once was so real... Time might heal...

WITHERING HEIGHTS

You have your faith, you stole my pride
Left me here looking in from outside
Like falling stars shrouded in rain
We built these walls to keep us sane

I'll try, I'll try, I'll try and maintain
Each day will pass, each day renewed
I'm trying hard to forget you
And all the things you would do

We are the rain, we melt like snow
I'm drifting down this winding slope
This is my path, it's withering heights
And we'll be rocking the show tonight!

Our hands raised in a single voice
Each day will pass, each day renewed
And I'm trying hard to forget you
I'm trying, I'm trying to forget you!

I FOUGHT THE ANGELS

Everyone knows of the cold running through your veins
It's pumping by, pumping by as I scream your name
Standing here, it's all too clear outside in the rain
It's pouring down, pouring down to shatter my faith

Watch as I disappear my friend
I can never be with you again
How was this meant to be?
Sad story between you and me
Kind that never ends well, my friend

This won't stop any clock from bestowing change
tick tick tock, tick tick tock, count down your fate
Pause mid-scene, life becomes surreal in the wake
I'm looking down, looking down to seal your gaze

Watch as I disappear my friend
I can never be with you again
How was this meant to be?
Sad story between you and me
Kind that never ends well, my friend

How could you go deserting me?
The angels I fight will never cease
Guess that's how it's meant to be my friend

INTOXICATE

Come and fly with me
Find all that you seek
High above the trees
Lift your soul and be free, take on me

Here where I lay, dead skin on display
Trust what I do, intoxicate you

Let down your veil
Behold all that you see, take on me

Take my hand, fly away from land
Out over the sea to a new land
Don't look back, moments pass
Step through the looking glass
I can't believe, what I see
The world upside down, inside me
Spinning round, losing ground
Oh no, I'm crashing down

Sat upon the throne
Taste of the unknown
With your trust in me
Lift your soul and be free, take on me

PART OF THEIR CONSPIRACY

God only knows, her infinite wisdom bestowed
A clue, a choice we all must choose
I say, "Angels keep your devils at bay"
"Hip-hip hurray!!" Out to the fields for the parade

Who do they want me to believe
It's all part of their conspiracy
Against you, against everyone I see
It's all part of their conspiracy

I taste the blood, a thousand soldiers within us
Fall down, ashes spread across the ground
I see the fires burn from bay to bay
"Hip-hip-hurray!!" The revolutions underway

The fires burn from bay to bay
"Hip-hip-hurray!!" The revolutions underway
We'll march on... and on... on & on & on
We're marching on past the dawn of tomorrow
Cause the revolution's underway
Watch the fires burn from bay to bay
Hip-hip-hurray! Hip-hip-hurray!!
Hip-hip-hurray!!! The revolutions underway
And we'll march on and we'll march on...

BURN OUT THE NIGHT

Down by the ocean side
Bon fires on summer nights
Hair down, feeling so alive
Light up one as we...

Burn out the night
Stay up 'til the morning light
Stay up 'til you can't stand no more
We're hanging out with friends
Parting 'til the bitter end
Parting 'til we can't stand no more!

We are bent over in Bend
Card games that never end
Jump into the hot tub again
Raise a glass as we...

We're hanging out with friends
Parting 'til the bitter end
Parting 'til we can't stand no more
So burn out the night
Stay up 'til the morning light
Stay up 'til you can't stand no more!

PREDICTABLE AESTHETICS

Working all day, working all night
I never get out to see the light
Four walls to a cube, make an excuse
Making the most of what I got to do

Florescent light, swinging from a height
Have to get this Powerpoint done tonight
Four walls to a cube, make an excuse
Making the most of what I gotta do

Beep, beep, beep. Printer won't feed
Toners out and shit ain't cheap
Four wall to a cube, make an excuse
Making the most of what I gotta do

Have mental block, water cooler talk
Catch up on all the Facebook gossip
Four wall to a cube, make an excuse
Making the most of what I gotta do

One day late, a slide short
Maybe no one will miss it in the report
Four wall to a cube, make an excuse
Making the most of what I gotta do

BLOWN AWAY

I see the fire and I'll walk through the flames
In a quest to be with you, I know you'd do the same
This path is twisted and it shifts in the light
But I have no fear so bring on the night cause...

These are your final days
Get on your knees and pray
You won't be the one who's saved
Cause I'm gonna blow you away

Today... I'll blow you away
This is your final crime
Humanities paradigm
Salvation will be mine tonight

I see the water and I'll walk on the waves
In a quest to be with you, I know you'd do the same
This sea is raging and it shifts in the light
But I have no fear so bring on the night cause...

You came, you saw
You have the biggest heart of anyone, I know
Take this piece and let it grow.
I traveled across this land searching for
Redemptions hand, stories they survive
But tonight your gonna be mine

CRIMINAL LOVE

Never thought this would be the last grab
Thinking back upon all that we had
I understand that things went wrong
You left me here to carry on

Driving past life at 95
You'd never slow down for a free ride
Rather you'd just get out and run
Chasing down the last light of the sun

She was straight out of my dreams
The most beautiful gal on Interstate 19
We raced past the cars, trucks and cops
Now I'm in jail for our criminal love

Was down on my luck from the start
That changed before everything fell apart
Oh babe, I miss you so,
Knowing that you can never come on home

You'd hug the curves, step on the gas
Live each moment like a heart attack
No one could not have ever foreseen
The alarm as we made our get away

She tore out my heart, fled the scene
Left me here outside of Palm Springs
Please forgive my sins sweet lord above
For I'm in jail cause our criminal love

POWERLINES

I've been searching for you
Tall, dark and tattooed
Seems you got what I need
Build up charge so I'm set me free

Hit me with that spark
Jump start my aching heart
Electro-shock is what I crave
And this boy has misbehaved

So tighten up those lines...
You pierce through me like static electricity
Swinging from the pole with powerlines
Hit me with that spark before lights go dark
Swinging from the pole with powerlines

Plug in a volt meter test
Wanna feel lithiums caress
A conduit upon his knees
Tap the grid to tame my greed

Light me up like the sun
Watch as I come undone
Make my heart skip a beat
Turn me over and then repeat

OOH, OOOHH

Blue skies shine behind the rain
Who'd guess, you would have changed
How long until I can go home?

I can't look ya'h in the face
So mad at all the games we'd play
Standing here, feeling like I'm gonna fall

Ooh, Ooohh

This would be fine most any day
"Hey, dude! Sketchers aren't so lame."
Said my peace, now it's time for me to go

"One more thing, I'd like to talk about."
The sun is slowly going down
For fuck's sake man, my coffee's getting cold

Ooh, Ooohh

As I turn and start to walk away
I swear I could hear you say,
"Later bro, I'll give you a call." Oh, fuck no!

YOUR NAME IS TATTOOED ON MY HEART

Well, I know that our love is for real
But I thought you should know how I feel
So you're not going anywhere, won't fade away
Cause your name is tattooed on my heart and I'll always be true

Don't forget that I won't forget you
Where ever I go, what I do
And should you slip my mind, I'll have this to remind me
Your name is tattooed on my heart and I'll always be true

Am I such a fool
To show my love for you
I know it's no mistake
And no this thing is not a fake
